Communication Plan

- Make an emergency communication plan with your family and friends.
- Designate a family member outside of your area as your main point of contact.
- Enter emergency contact numbers into your phone.
- Utilize text messaging when wireless networking is jammed.

CERT Training Program

- The Community Emergency Response Team training prepares community members to effectively respond to emergencies.
- The course trains community members in preparing for disasters, responding to fires, and aiding in search and rescue operations.
- The program is led by a group of first responders from the community.
